

WELLNESS & EARLY INTERVENTION

What We Do

Childcare Resources works to provide wellness services to program students and their families. Wellness services include:

DEVELOPMENTAL ASSESSMENTS

All program students are screened a minimum of twice each year. These screenings help ensure children are on track to meet developmental and social emotional milestones.

HEARING & VISION SCREENINGS

All program students have the opportunity to receive basic hearing and vision screenings each year.

IN-CLASSROOM ACTIVITIES

Activities in each classroom support social-emotional competency, developmental milestones, and resiliency.

BEHAVIORAL SUPPORT

Our Mental Health & Behavioral Coaches offers support in the classroom setting, as well as individual intervention for children who may struggle with self-regulation or other issues within the classroom environment. A home visiting component is also available for this service which is available to all program families.

ON-SITE THERAPY

Occupational therapy, physical therapy, and speech therapy are available on-site in state-of-the-art therapy rooms. Childcare Resources works with local therapists to provide the services each student needs.

PARENT ENGAGEMENT

Family educational opportunities are offered to enable parents to explore topics such as transitioning to kindergarten, Conscious Discipline curriculum, and developmental milestones.

PARENT CAFÉS

In a Parent Café, parents have the opportunity to network with peers about parenting topics in a guided learning environment.

MENTAL HEALTH REFERRALS

Mental health referrals are available for enrolled students and program families, including siblings, parents, or guardians.

CONNECTING FAMILIES TO THE RESOURCES THEY NEED THROUGH OUR FAMILY SUPPORT SPECIALISTS

Childcare Resources is a hub for early education in Indian River County. Collaborating with other local nonprofits and organizations, we help connect families to the resources they need outside of our program services.

Childcare Resources Wellness & Early Intervention Program Vision is to give every child the best start in life through early, innovative, and family-centered care, empowering families, connecting experts, and intervening early to build strong foundations for lifelong wellness.

Wellness Team

Please reach out to our Wellness Department to find out more about the resources and support we provide to program families: 772-567-3202.
